Apologies None

1   Time and Place

The *fifth* supervisor meeting for the MCI Group Project was held in **Ingkarni Wardli level 4** at **2:30pm on Tuesday 29th March 2017**.

2   Quorum Announcement

The Chairperson announced that a quorum of the group was present, and that the meeting, having been duly convened, was ready to proceed with its business.

3   Review Pitch Presentation

Summary of the results of the pitch presentation, and the client asked our group the prepare more sufficient for the next time.

4   Milestone One

Our group described our milestone one, and for the first milestone we need to finish the following tasks:

- Get the right solutions for trace tables.

- Design web pages.

- Login interface.

- Upload source file, solutions and store them in database.

- Create empty trace table according to source file.

5 Represent the current achievements for C Tracer

5.1 Teacher mode

Changchang Liu illustrated the current achievements for teachers mode.

- Finish design and develop the main page for upload source file, including show a list of already exists source files, delete this files by name, and choose new files from local computers.

- Can store the uploaded source files into database.

- Can generate the solution by asking teachers generate solutions by using terminal.

- Can store these solutions into database and display them.

5.2 Student mode

Tianxu illustrated the current achievements for Students mode.

- Finish the login interface, and can let user login by input user name and password, and can also separate different users by different authorities.

- Can mainly display the source file.

- Can mainly to generate empty trace table;

5.3 Issues need to be fixed

- Have to better design the front end of all of the pages.

- Have to find a way, generate the solution automatically(not by terminal).

- Have to change the way about how teachers delete the source file.

- Could add register method if still have time later, and think further about the security issues.

- Need to delete the line break when display the source code.

- Need to add the "add" button for the trace table to allow students add lines when iterations happen.

6 Check for business case and draft plan(BCDF)

The supervisor checked both team members BCDF documents and provide some change request for each members, there are some main issues.

- Need to be more clearly when describe the project.

- Need to focus on some syntax rules for academic reports.

- The milestone should be start from week 4 to week 6.

- The project organization should be more focus on each members tasks.

- Should be clearly describe all of the milestone tasks.

7 Adjournment

The next meeting is a *Supervisor* meeting with all members present, and will be held in *Ingkarni Wardli Level 4* at *2:30pm* on *4 April, 2017.*
